TECHNOLOGIES

JavaScript

React

Node.js

TypeScript

Gatsby

Git

HTML

CSS

Tailwind

MongoDB

SQL

Adaptable and experienced Software Engineer, looking to join a modern JavaScript development team. Skilled in React and Node, and particularly strong at algorithms.

EXPERIENCE

Rule Developer

(Apr 2019 - Present)

Transcepta LLC

- Teaching our system to intelligently recognize and extract data from varying file types.
- Performing programming tasks using vbScript, JavaScript, Regular Expressions, and MySQL.
- Volunteering to onboard our new employees. Becoming the team's sole training coach, training over 10 people in the span of two years.
- Creating new internal automation scripts to speed up shared workflows within the team.

Open Source Contributor

(Jun 2022 - Present)

Participating in Open Source projects. Contributing code, fixing bugs, and making improvements to written content.

Major projects contributed to:

- Gatsby
- freeCodeCamp
- Full Stack Open

PROJECTS

Bonsai Notes

TypeScript / React / Node.js / Tailwind

A note-taking web app. It allows the user to categorize their notes using folders, which can be nested to any depth. This project aims to provide an intuitive and fully-featured note-taking experience, without the learning curve found in other note-taking apps.

The code can be viewed on [Github](https://github.com), and the demo can be viewed at: <https://bonsainotes.com/>

Project Euler

JavaScript / Mathematics

A series of difficult algorithm challenges. Solved first 30 problems and counting. [Progress and solutions can be viewed on Github.](#)
